DETAILED ACTION

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with the client Mr. Robert Henry Lopez on Wednesday, September 29, 2004.

In reference to paragraph [0003] of the specification, insert the word "of" between "an adapter which allows the use" and "smaller collets" to improve readability. In lines 20 and 21 of claim 1 (item 1(g)), "collect" has been changed to "collet".

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: Maier '034 is the closest art of record. McConkey '876 lacks the adapter collet set screw for securing the internal smaller collet to prevent rotation by compressing on the smaller collet external threads. There is no suggestion to provide McConkey '876 with this element and function, as it would require modification beyond the scope of the US Patent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claim 1 is allowed.
